

Dear Parents

Arwachin World School Bhopura

Refresh and Recharge

The Summer Vacation is here, again!

Although our children have been homebound for more than a year now, this is the time they excitedly look forward to. A big Shout Out to our kids for their resilience and courage to endure this challenging time with a smile on their faces. We extend our gratitude to our dear parents for their help in making teaching learning process interesting and a great success.

This pandemic has taught us to adopt to uncertainty, to become the flow and change accordingly. Yet it has also taught us to hope and know that there is a light at the end of the tunnel.

Let's fill our children with positivity and assure them that everything will be back to normal soon. It is a proven fact that when one follows a structured routine, one feels more organised and in control. Hence, we request you to ensure that our children maintain a proper routine, get regular exercise, and stay connected to their peer group and teachers.

This break is also a great opportunity to spend quality time together as a family.

Thanks

AWS
