Message

From The Trustee's Desk

Dear Students,

The session 20 - 21 has been unlike any other session. COVID-19 brought with it unexpected and unprecedented challenges and upheaval. Our best laid plans but the same circumstances also brought out remarkable acts of creativity, compassion and Kindness. While No one was prepared for the pandemic, however, it is commendable how quickly and efficiently the global education sector Our school had also adapted to the new normal. Flexibility, uncertainty and adaptability become the mainstay of the new normal.

The success of AWS is not sheer luck but a result of clear focus, vision and determination. Our strong foresight helps us to adapt ourselves quite easily to the changing environment, compete with others and make a mark of our own. Each member of AWS has worked diligently and the priority has been to nurture, educate and craft remarkable professionals. This has been achieved through capacity building in technical and soft skill, in order to make them capable of competing with peers in the corporate.

We have extremely dedicated team of faculty members who guide, mentor and counsel the students continuously and bring out the best from them. The Faculty also stalwartly believes in attainment of goals and accordingly adapt to changes around, this skill is deftly conveyed to the students as well.

We are sure that our journey to excellence would continue with faster pace in approaching years with our reinstated commitment to disseminate quality education in the fields of Management and Information Technology.

God bless you!

Dr. Urmila Sharma

(Trustee, Arwachin World School)

Message

From The Chairman's Desk

Education is not just a process of giving knowledge for a future job but a lifelong process which creates an understanding of moral and ethical values to guide one's life in a right path. As a parent, you want the best for your child and we are proud to be working with you to ensure that they are given the right knowledge to face the future challenges. Parents, students and the school authorities are a team and we have to complement each other's efforts.

At ARWACHIN WORLD SCHOOL , we focus on complete development of our students by involving them in both scholastic & co-scholastic activities as suggested by CBSE. I am sure this will help our children to realize, understand & explore their talents. In order to do this, the parents and the school authorities must work together to inculcate certain values in the students. "Sound body has a Sound Mind." Let us allow our children to develop physically & mentally. Children learn a lot of values when they are involved in Sports & Games. Some of these life skills & values cannot be taught in the classroom or at home. AWSI provides enough opportunities for the children to participate in Sports & games

If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits." Therefore, children must be given a good training from their earliest childhood. We are here for the same. I am sure that our students of today, tomorrow will carry forward the Motto of love and unity entrusted in their hands at Arwachin World School, Loni, Bhopura.

"Do the work with intention not because of compulsion."

With all my love, best wishes and blessings

Mr. Anurup Sharma

Chairman of Arwachin Group Of Schools

Message

From The Member Of Management Desk

If a child lives with criticism , he learns to condemn
If a child lives with praise, he learns to appreciate
If a child lives with tolerance, he learns to be patient
If a child lives with approval, he learns to be like himself
If a child lives with fairness, he learns to justice
If a child lives with security, he learns to have faith
If a child lives with acceptance and friendship, he learns to find love
in the world

Dear Parents,

Everyone would agree that children are the most precious gift on earth. In many homes parents yearn for them, plan for them and dream about them even before they enter this world, hence the parent's role in shaping their Child's personality be undermined.

Parents have a remarkable power to make or break the self esteem of a child. In the present times parents reserve maximum credit for the most intelligent and the most beautiful child instead of rewarding honesty ,integrity, courage, loyalty, patience and diligence – thereby inflicting the greatest damage on their offspring. As we all know that this could even begin during infancy in the home, which should otherwise be the child's sanctuary. And I know, we all want super children who will amaze the world. Such idealism is not a reality but we should learn to love our children for what they are and count our blessings each day, in every way for.

Wish you all the good luck!!

Ms. Saumya Anurup Sharma

Member of Management, Arwachin World School

Message

From The Manager's Desk

Dear students, parents, staff members and well-wishers,
It is my honour and privilege to greet you with warm prayerful wishes
that you be showered with abundant blessings from the Almighty.

"Your attitude is either the lock on or key to your door to success"

Denis Waitley

Each of us, sooner or later, goes through a moment or a situation when
it seems that we are on the wrong road, and life is moving in the wrong
direction.

But ... this is also true that some things are within our control and what
disturbs us are not events or situations, but our attitude towards them.

Dear all, I wish you the blessing of a positive attitude, and this is what
we also try to build in our students. We, at the Somerville Schools, strive
to provide a platform where a child is holistically educated,
encompassing physical (physiological), mental (cognitive), social,
emotional (psychological) and spiritual growth. We aim that our students
became a resource for tomorrow.

We accentuate learning by synergy and collaboration and this surely
comes with a positive attitude towards life. Every student at Somerville
is given a voice and avenue where they are able to express their
knowledge and dream big and achieve big.

As water reflects the face, so one's life reflects the heart.

I am confident that at the Arwachin World School , everyone will
understand the true meaning of life, love life and live life to its fullest
with the Almighty as the guide, and reach the heights of glory.

May the Almighty Lord, continue to protect and bless our schools.

Mrs. Prabha Garg

(Manager, Arwachin World School)

Message

From The Academic Advisor's Desk

Coming together is beginning, Keeping together is progress, Working together is success.

Education is a passion driven journey. The excellence in the teaching and learning experience is achieved by people who are internally motivated to give direction to the lives of several people. Education traditionally was not only meant to be the preparation of life, but it was supposed to be the life in itself.

It enriches both teacher and taught with dignity, respect, equality, love, affection and ample skills to have an enriching life. The final aim of the education however, is the social reconstruction, reforming, keeping abreast with the times of the society. Our school believe in all round development of children, and inculcate in the minds of the young ones the values of human dignity, equality and a sense of brotherhood, which are the three icons of our democratic country.

Our expectations are high not only from our pupils but from our staff as well. Each one must recognize the value of a caring and motivational atmosphere and be aware of the need to work in partnership with parents for the future success of the students as they prepare for the opportunities, responsibilities and experience of adult life.

Any educational experience for the child gets consolidated with the strong bond of the nurtures, the parent and the school. For we firmly believe that teachers are trained parents, enriched with the experience of hundreds of students. Together we can form a relationship that is mutually beneficial and supportive for the child.

Good luck - I'm sure you 'll do great!!

S. P Sharma

Academic Advisor, Arwachin World School

Message

From The Head Mistress's Desk

I am very proud of AWS, Bhopura which successfully transitioned to a distance and digital learning platform almost immediately upon the government's order to close all school buildings.

This would not have been possible without the dedicated leadership of our honorary dignitaries and hard work of our teachers. Our school has continued to provide each of our students with a faith based academic program , ensuring that they are being challenged to learn everyday. Our parents also contributed immeasurably to the success of this digital learning environment. We at AWS, Bhopura are committed to the improvement and growth of student's community. We would like to see them soar the new heights and taste success in all their endeavours. We are convinced that education's purpose is to place an empty mind with an open one we seek to install a passion for learning in our students that will equip them to make a positive contribution to the communities in which they live and work beyond school.

We believe that this is the time to not just deal with the current emergency but also built foundation of resilience to face such difficult events in the future. Let us consider this challenge as an opportunity. We need to be prepared to take life ahead with all our normal activities according to the new normal as we believe that.

"Progress is impossible without change and those who cannot change their minds cannot change anything."

- George Bernard Shaw

From The Coordinator's Desk

A word to our readers,

We, Arwachin World School, Bhopura Are pleased to put forth this edition of 'SANGHARSH 2.0' Which not only exemplifies are adoptions to contemporary realities but also carries hope for everything that is to come. this year edition of 'Sangharsh 2.0' encompass is the important theme of 'Navigating through the pandemic towards EXCELLENCE'.

This issue is no more than an embodiment of a colourful world of imagination and dreams compiled together through words, pictures, initiatives and progress. here every page opens a world of unique understanding which has the power to settle into the readers gradually and insightfully.

Is our journey through the catastrophe of the planet indicating that no hurdle can stop the ideas and beliefs from taking shape?

In the same spirit we say there is plenty to interest us in the writing of our movement and not only in the writing., everywhere we look, whether it's the new painting, film for even the simplicity of nature around us, sufficient unto the present day, the only one we have got.

The relentless efforts flaunted in this magazines are bound to star an emotion of unalloyed peace and pleasure into the mind of the reader.

Enjoy reading.....

*Imagine with all your Mind
Believe with all your Heart
Achieve with all your Might*

Arwachin World School, Bhopura is extremely joyous and proud that **Ms. Saumya Anurup Sharma** (Member of Management, AWS) has received the Prestigious State Teacher's Award 2021 and has brought immense glory to school as she has become the Youngest Teacher to receive this honour. Each member of the organization was overwhelmed of this success and wishing her all the best to win many such honour in future as well.

Parent's Review

Parents spend days if not months, searching the web for schools for their children, and part of that search is reading reviews.

"Arwachin World School provides students a very high-quality education. It provides a very healthy learning environment where teachers and students are very well connected and interact with each other for any academic need. School provides to teach not only the academic subjects but it also teaches the moral and social values to the student, which is much needed in the present days.

During the ongoing pandemic time, the school has shown its commitment towards the society by continuing to provide a high quality of education to its students by every possible means available."

Tomika's Parents -

Mr. & Mrs. Bhattacharjee

Master Aradhy Sinha; my elder son who reads in Class III of Arwachin World School, Bhopura Ghaziabad. My son has been studying in this school from Pre-Primary and during this tenure he has always been cared by the school for his study and extra-curricular activities. I have noticed his all-round development and hence got the admission done of my younger son Aryan Sinha as well. I appreciate all the hard work and the positive learning environment the school has been providing to all their students. One basic thing which I have noticed in this school is fostering students with equal care to improve academic knowledge, art, Cultural and social behavior.

Management of the school has always been trying to achieve the goal by dynamic team work of teachers and maintain ideal pedagogy even during pandemic. I wish the same remain always to generate rich alumni base.

Regards,

Kumar Amikar

Dear teacher, without your guidance and wisdom, our child wouldn't be where she is right now!! Teachers like you are the reason why ordinary students dream of doing extraovert things even in pandemic situation . effort you all did for students by taking online classes with a creative mind , interact with students very extrover mind .I really appreciate your efforts towards students including curricular activities .keep doing and be supporter and guider , follow guru, dharna towards you shishya!!

Thankyou

Manisha jain

Class 8th

AWSS focus on overall personality development of a child by organising events on all national and cultural festivals that helps my son to know our culture, values and helps him to grow morally. I feel that the teachers are making wonderful efforts at not just in teaching but forming a bond in their students by paying individual attention to each one of them. I am very happy that besides academics my son also eagerly participates in other activities like yoga , dance and art & craft.

Feedback
I would like to express my appreciation towards all teachers of Arwachin World school Bhopura Ghaziabad for their commendable efforts they are doing with the online classes. In order to maintain a sense of continuity and stability to children during this unprecedented times of covid pandemic the teachers left no stone unturned in facilitating our children through online activities. Their presentations are well drafted and every small point has been covered in such a way that complete concept is clearly understood.

The important thing is that teachers are paying personal attention towards children and scheduled classes for needy children have been also given. Teachers are always ready to address the problems of parents regarding their wards in leisure time also.

I personally feel very satisfied and happy with school.

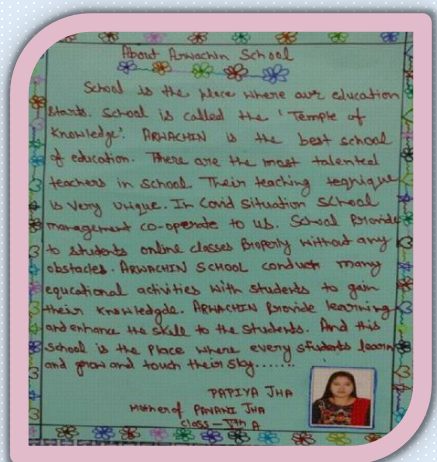

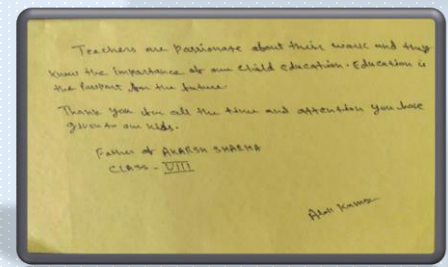

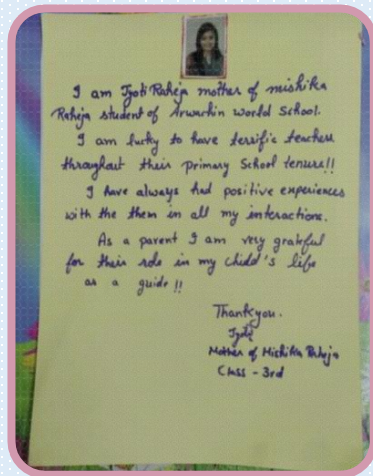

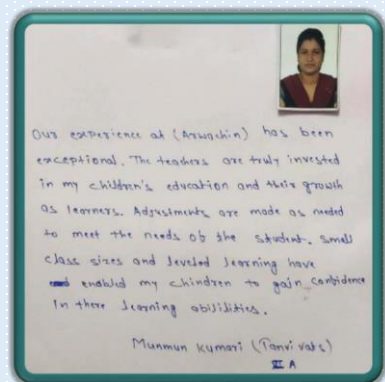

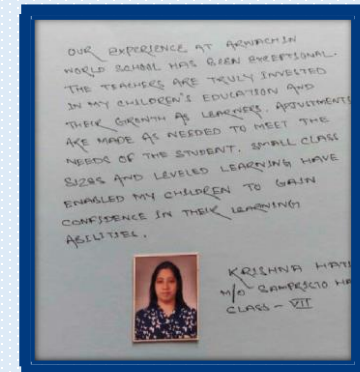

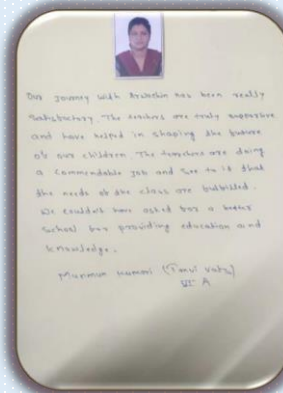

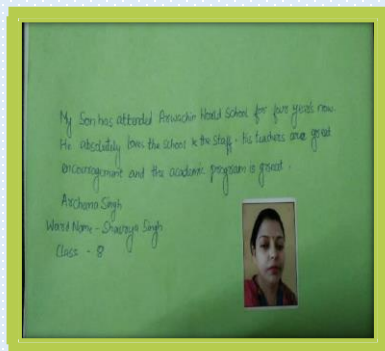

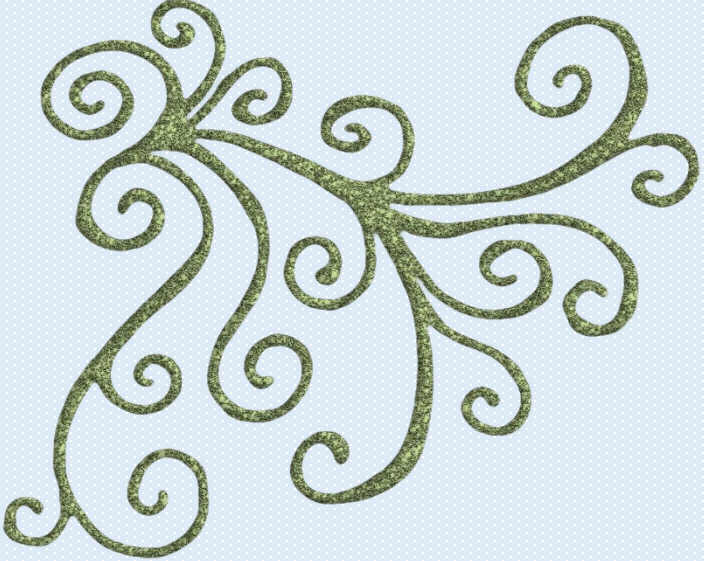

Amit Mehra. Father of Anagat Mehra
Class 7
Anagat Mehra
Class 7

In these troubled times, our praise goes to the dedicated and the extraordinary efforts made by the faculties, school staff and children. Due to COVID-19, schools were shut all across the world. Globally, over 1.2 billion children are out of the classroom. As a result, education has changed dramatically, with the distinctive rise of e-learning. Everyone's life was uprooted due to covid but we adjusted however we could. But the one thing we couldn't compromise with was our child's education. Arwachin world school made this their top priority to minimize the effects of this situation on children's education. They sprang into action regarding online classes and did their best to nurture the extracurricular and creative side of the education.

LEARN TO CODE

On 5th October 2020 students of Arwachin World School attended a session of coding class. There were two sessions , one was for classes 1st to 5th and second was for 6th to 8th . According to that the future work is all about computing skills and computer science, so getting students prepared from early on is considered a must. Coding education in schools is definitely beneficial , it is important for students to start it from the early age.

Creativity can be taught, developed and improved!!

Yes, Creativity CAN BE Learned

Webinar Report

Learning is the process of acquiring new understanding, knowledge, behaviours, skills, values, attitudes, and preferences.

Teachers, facilitators, and Instructors must understand their students in order to affect learning.

Understanding who learners are and how they develop cognitively, emotionally and intellectually will help instructors create learning opportunities which will enhance student knowledge.

To keep this in mind the teachers of Arwachin World School also had not left any stone unturned. In pandemic also our teachers attended many webinars to upgrade themselves for facing the new challenges in the academics.

WEBINARS ATTENDED BY THE TEACHERS
